THE WEEK IN CONGRESS

No Probability of Mr. Morgan's Cuban Resolution Passing.

DEBATE WILL CONTINUE

The Vote When Reached Will Be on a Motion to Refer to the Foreign Relations Committee-Republicans Propose to Use Cuba for a Fall Campaign Cry.

If Senator Morgan believes his resolu tion granting belligerent rights to the Cuban insurgents is to be permitted to pass the Senate that Senator is laboring under a misapprehension of which he will be disabused ere long. There is not a better or stronger friend of this oppressed people than the Senator from Alabama, and he has for several weeks been calling up his resolution and pressing it to a tote, only to courteously yield first to the importu nities of one Senator and then another.

Last week Senator Hale, who is the ost avowed friend of Spain in the Senate, made the broad statement that he did not intend to delay for delay's sake, but if the Senator would hold himself in check for a few days Mr. Hale said he should be will-Mentally, Mr. Hale winked his other cywhen he made this apparently candid statement

The debate will continue, however, There will be little or nothing before the Senate this week. The conference report in the Indian bill will not take much inne, and the House is supposed, will not resitate long over the sundry civil bill. There is jutile hope of that getting out of the way this week, though, however, much employes may long for that extra month's pay. Senator Allison, who was in charge of the bill, and will be the manager of the conference on the part of the Senate, is in lowa, and will not return

gntil Saturday.

By agreement the tariff will not come up until the 18th, and that date is likely to be shifted ahead, so that Mr. Morgan and his resolution will have full awing The prediction is made that when Mr. Morgan finally gets a vote it will be on a motion to refer the resolution to the Committee on Foreign Relations, and there it will slumber peacefully and camby, awaiting the signal from the White

House, for its resurrection.

President McKinley is not yet ready to recognise the insurgents in Cuba as belits, and when he is ready so to do he will do it without the passage of any resolution. The Administration men in the Sen-ate have quietly passed the word along that Mr. McKinley does not want this resolution passed. Mr. Hanna, who is not much of a statesman, but who does know the mind of the President, intimated this to several of his colleagues, and so have Senators Proctor, Davis, Cullom, and Thurston, all of whom have a friendly entree at the Executive Mansion.

Mr. McKinley, like Mr. Cleveland, does

not propose to have this resolution forced upon him and the Republican party, as everybody knows, has a much firmer grip on its legislative machine than did the party headed by Mr. Cleveland. For this Teason the resolution will be put to sleep. Administration Republicans say that this does not mean that McKinley is not friendly to the Cuban people. He simply wants to await his own time. He will do nothing until his old friend W. J. Calhoun returns from Cuba, and if the report of that confi-dential agent justifies newspaper reports then it is probable the President may take up the Cuban question and startle the country.

There is another and a far more potent reason behind the seeming indifference of the Republicans. Every effort is to be made to secure the enactment of the tariff bill by the first of the new fiscal year. If, within a couple of months, prosperity does not smile upon the country and good es do not begin to appear, this Cuban | body, but owing to the fact that it was business will be worked for political ends for the effect it may have upon the ap proaching Congressional elections. Mr McKinley has had an abundance of advice on this score. The next House is to be kept Republican, if that be possible, at all hazards. If the settlement of the tariff does not break open the born of plents sermit its contents to scatter through out the land, then, according to the state ments of Republicans who have been dis-cussing this subject in secret, the people are to be made to forget the cond that confront them through an appeal to their patriotism and their friendliness for an oppressed and downtrodden race.

The jingoes will be turned loose the at least-got up with Spain over our interference in Cuba. Under the furore that It is hoped will accompany this outburst the elections, the Republicans hope, will carried and the Administration saved the humiliation of a part of the legislativ branch being placed under the control of an opposite party. This is said to be the whether subsequent events will permit to be carried out

A Bootblack's Serious Offense. John Black, a colored bootblack, sixteen

years of age, was arrested early this morn ing by a policeman in the Fourth precinct for felonous assault upon Mary Ray, a fourteen-year-old colored girl, living in Allen's court, between M and N streets The assault was made Fri day night, and complaint in the case was made by the girl's employer. Black was lurned over to Policeman Phillips and lecked up in No. 5 station-house.

ONE OF TWO WAYS.

The bladder was created for one purpose. namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other di

CHIEF CAUSE.

Unhealthy urine from unhealthy kidney is the chief cause of bladder troubles and suffering so painful to many that life is ble. The womb, like the bladder, was created for one purpose, and if left alone it is not liable to become discased. except in rare cases. When in position the womb is situated back of and very close to the bladder, and for that reason any distress, disease, or inconvenience ma grinary passage, is often by mistake at trouble of some sort. The error is easily made and may be as easily avoided by paying a little attention to the prine (see perophiet). The pull and extraordinary great kidney, liver, and bladder remedy is soon realized. It stands the highest for its wonderful cures. If you need a medicine you should have the best. At druggists, BPy cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Morning Times and send your address to Dr. Kilmer & Co. Ringhamton, N. Y. ASSUMING HIS NEW DUTIES.

atistician Hyde to Begin Work is the Agricultural Department. Mr. John Hyde, of Nebraska, who suc ceeds Mr Henry A. Robinson asstatistician of the Agricultural Department, will in all probability assume practical charge of the

office during the present week, in order that he may become thoroughly acquainted with its affairs before the resignation of his predecessor goes into effect. The work of the bureau of statistics will not be wholly new to Mr. Hyde, for he will be remembered by many as the agri cultural expert of the eleventh census Mr. Hyde is also well known in scientific cir-

cies, having a few years ago been elected a fellow of the Royal Statistical Society of London. He is also a member of the council of the National Geographic Society and secretary of the American Statistical

It is rumored on the "inside" that it is the intention of President McKinley to pro-mote Mr. Hyde to the superintendency of the Census Bureau. In the event of this ng done it is authoritatively stated that Mr. Hyde will continue in the post ow occupies.

SAD DROWNING ACCIDENT

Young Thomas Falls From Slippery Rock and Is Lost.

VAIN EFFORT TO SAVE HIM

Was Fishing Near Chain Bridge With Some Companions and Fell Into the Potomac Where the Water Is Swift and Deep-Struggles Witnessed From the Shore.

A boy named Thomas, about sixteen years of age, while fishing near the Chain Bridge yesterday afternoon, accidentally fell into the river and was drowned. His body was not recovered.

The lad was the adopted son of George W. Thomas, of this city, and the family, together with several friends, were spending the day up the river and at Cabin John Bridge. Mr. Thomas and his wife were members of the party and at the Chain Bridge young Thomas and three or four other boys started out to spend a short time fishing.

They selected a spot on a ledge of rocks where the water runs rather swiftly and cast in their lines. For some time they sat quietly and drew forth a good string of herring. Finally young Thomas thought he saw a better pool and made an attempt to change his position. The rocks are rather slippery where the water has washed up on them, and the water is quite deep while the current runs swiftly. As he started to step from one rock to another, one of his companions shouted to him to be careful and not fall in He had so sooner spoken than the boy made a misstep and slipped off the rock into the

At the point where he fell in there is a little whirling eddy, which at once car ried him down under the water.

The boy knew how to swim, but cou nake no headway against the current, which was rapidly carrying him out into

He cried loudly for help and one of his friends who was fishing beside him quickly pulled off his coat and jumped in to sav the life of his companion. He, too, was caught in the suction of the eddy, and Instead of being able to reach his friend would himself have been drowned had it not been for the prompt action of a third boy, who managed to cling to the rocks, and extended his hand to the young man, who was nearly exhausted when pulled out upon the bank.

Young Thomas was drawn down by the current and was not seen to rise again.
The drowning was witnessed by a nur ber of persons in the party on shore, but all were powerless to save the young man. An attempt was made to recover the

the channel, it could not be found The accident was reported to the police of the Seventh precinct last night by several persons who came in from the Chain Bridge, butthe boy's address and given name, could not be learned.

NEW LEAK IN THE DRY DOCK

It Took Hard Work to Save the Massachusetts From Damage.

There May Be Some Serious Flaw But Engineer Menocal Expresses a Contrary Opinion.

New York, May 9 .- The condition of the great new dry dock, No. 3, at the Brooklyn navy yard changed for the worse last night.

Another leak developed during that time on the west side of the dock, opposite the ing, and new sets of conjectures were se affoat among the navy yard officials and visitors as to just where the faults were and how they were to be remedied.

Capt. Merocal, the engineer in charge, whose duty it will be to recommend meas ures for making the dock safe, continue in his belief that the fault is of a trivial nature, and one that will be cured by closing the 190-foot gap in the sea wa facing the Wallabout bay to the east

of the entrance to the dock. offer theories which involve a belief in

All night and today and up to 4 o'clock this evening, men were at work making the buttleship Massachusetts safe against a sudden inflow of the water. On either side of the ship amidships, are ports seventeen inches in diameter, through which the ship's engines send out water, which has previously been taken in to circulate through her condensers to cool the used steam. The seventeen-inch pipes lation pumps are badly rusted and it had been decided to replace them. These pipes were not in place when the leak began, and if the dock had been suddenly floated to above the nineteen-foot mark, there would have been danger of swamping the Massachusetts in the dock, just as the Texas was sunk by the breaking of a

Navni Constructor Bowles heaved a sigh of relief at 3 o'clock this afternoon when the last one of these pipes was accurely in place and caulked and the ship was safe in that respect. Soon after that he ordered water let into the dock up to the twenty-foot mark for the double purpose of testing the tightness of the caulking of the new pipes and to relieve the strain on the lining of the dock from the water gathered behind it and feeding the leaks. If the new pipes are found to be tight and everything else shipshape about the Massachusetts, the dock will be en-tirely flooded at high tide and the ship will be floated out.

Venezuela Government Agent Arrives in Washington.

BOUNDARY LINE QUESTION

Treaty Handsomely Eugrossed and Will Be Presented to Minister Andrade and Ambassador Pannce fote-History of the Case So Far as This Government Is Concerned.

Col William M. Scruggs, the agent of the Venezuelan government, was has been at Caracas since March 16, has returned to the city and is at the Strathmere Arms. He has brought with him the treaty be tween Venezuela and Great Britain for the arbitration of the boundary line between the former country and British

Briefly restated, the history of the case so far as this country is concerned, begins with the message of President Geveland, in which he took heroic ground to the effect that this country would investigate the boundary line for itself, and if the judgment was in favor of Venezuela, be would twist the Anglo-Saxon lion's tail all out of shape. He then went a shooting

to Quantico. A Venezuetan boundary commission wa appointed with Justice Brewer as chairman, the estensible object of this com-mission being to find the true line, and mission being to find the true line, and then that this Government should fight for it if need be. Pending its investigation the agitation for a general treaty of arbi-tration between Great Britain and the United States was renewed, and, it is said, that the yielding of the Venezuela matter to arbitration was a diplomatic move to secure the greater result of arbitration between England and this country A protocol was agreed upon between Minister Andrade and Sir Julian Pauncefole as to the Angio-Venezuelan treaty, and quite suddenly all interest ceased in the Venezueian boundary commission. The important terms of the treaty were that all matters heretofore in dispute between the two countries should be arbitrated and that the final judgment should be made by a tribunal of five members, two to be selected by the Supreme Court of the United States, two by the justices of the high court of England, the fifth, in case of disagreement, to be designated by

King Oscar of Sweden. The protocol was submitted to the Vene sucian congress last winter, this congress not having been consulted in the matter at all. There was some disagreement; first because the Venezuelaus had perfect confidence in the boundary commission, and second, because they thought they had a right to name one of the commi-They finally accepted the protocol with the amendment that they should be allowed to name a commissioner, and they selected Chief Justice Fuller, who was

ecepted by Great Britain King Oscar, there is reason to believe, has determined to name the fifth com-missioner, on account of criticisms made of him in the Senate. The fifth member will now be chosen by the four present members, and in case they can't agree, which is one of the probabilities, there will still be use for the boundary commi sion, and Venezuela appears to be very anxious that it be not dissolved.

The treaty, whose terms have been here ofore published in full by The Times, has been handsomely engrossed, and will be presented in due form. What remains to be done is the exchange of ratifications by Minister Andrade and Ambassador Pauncefore. Each country will then have eight nonths to prepare its case, three months more to prepare the counter case or re-plication, and then the commission will neet at Paris to hear counsel.

Col. Scruggs will be the senior counse for Venezuela, and there is reason to be lieve that the leading assistant counsel will be Senator Morgan, as already stated in The Times. The commission will have three months to consider the matter before rendering its decision, which will be final. As stated, however, one of the possible complications is that the commission can neither agree on a fifth com missioner, nor on a decision, if they pro

seed without a fifth wheel. Col. Scruggs was asked last night when the treaty was to be delivered to the min-ister and the ambassador. He said that "it would be done at the proper time, in the proper way and at the proper place." Further than this he would not specify. It was said, however, that Col Scruggs paid his respects yesterday to Minister Andrade. It is not unlikely that the formalities, whatever they may be, will

Col Scruggs has been the agent of the Venezuelan government before the bound-ary commission, and it is to his personal efforts that the consummation of the present mode of settlement is largely due. He had several consultations with President Cleveland at Woodley, and the proof of his great service to the home government is to be had in its appointment of him in his present important and honorable

GIRL STUDENTS EXPELLED.

A High Jinks at Wellesley College Results in Dismissals.

Wellesiey, Mass., May 9.-The serenity of Wellesley College has been rudely dis-turbed by the pranks of several girl students, who have been summarily dealt with by the faculty. It is all on account of the superabundance of animal spirits ome of the young women.

By the action of the faculty the mem ership of a merry organization of eight has been cut down, and just now there college who are wondering how Miss So-and-so, and a few other light-hearted and high-spirited young women managed to weather the investigation. But they did. and one of them, who comes from the West, has been given the credit of most eleverly outwitting the searching crossexaminers of the faculty.

in no event will the alleged illness of their relatives permit their return. Miss Helen Ordway, a dark-haired beauty of twenty-four, who would have received her diploma in another six weeks, packed her trunks and departed for her Massach setts home on Wednesday.

Mary Kirby, an auburn-haired freshman of twenty years, told the other girls that her "brother was very ill," and with bicycle, grip and Saratoga made off for her home in Wisconsin, never to return to Wellesley unless in some other capacity than student

Miss Tower, of Albany, likewise de parted, but she was in such a hurry that she could not wait for her trunk, so her ids sent it on after her. The others who for the past week have

een walking the chalk mark of propriety are not mentioned, and the village know so much are considerately keeping

It is told that one of the young we who had just left college, with another friend, still a student, rode up to one of the three railroad stations on their which had recently contained half a pint lature. - Chicago Tribe

SUGAR SCHEDULE DISLIKED

President Considers the Senate Revision Obnoxious.

Features of the Dingley Bill Thought to Give Sufficient Protection for Refiners of the Staple.

President McKinley is known to have expressed an unquilified disapproval of the sugar schedule in the Senate revision of the Dingley tariff bill to several members of the Senate Finance Committee before they reported the bill. The committee did not see at to modify the schedule in any slightest particular along the lines that

Mr. McKinley desired.
It may now be stated positively, therefore, that the sugar schedule prepared by Republican Senators is obnexious to the Republican President, who was supposedly cleeted because he represented the tariff ideas of the proude of the Republican party. President McKinley is said not to approve of many of the important features of the Senate off. Searry every reduction of the bill from the rates of the Dingley bill is believed to be at variance with his ideas. This is somewhat a matter of surmise, however, based on his well-known

high protective policy. Of the matter of the sugar schedule there seems no question Mr. McKinley believes the Senate committee has gone entirely too far in the other direction, giving too much protection to the sugar trust pinion the Dingley bill gave the refiners of sugar sufficient protection to compen-sate them for the alleged difference in cost of refluing here and abroad and the differential duty and the added duty on sugars imported from bounty paying countries made disastrous foreign competition

Many Republican Senators do not ap-

of this sugar schedule. It is an interesting query who the Re-publican members of the Senate Finance Committee wished to please when the framed this sugar schedule. They did not please Mr. McKinley, nor a large number of the Republican Senators. Practically the entire Democratic and Populist forces in the Senate believe that the schedule is outrageous. Speaker Reed and the other Republican leaders of the House, nearly the whole House, frowns on it Public opinion is bitterly and overwhelmingly against it.

There is the sugar trust remaining. It is asserted that this schedule was made word for word and line for line at the dictation of the sugar trust, and for no other purcoses than to meet its desires absolutely Representatives of the sugar trust have had free access to the rooms of the Re-Hotel, when even the Republican Senatorial colleagues of the members were excluded.

They have been the honored guests of committees. They have been They have given wine and

dinners in return. The sugar schedule as it stands in the Senate bill suits the sugar barons better than the present law. At present they are enabled to pay 12 per cent yearly on their normously inflated stock and have millions of surples. If the Senate bill becomes law they should be able to increase the

dividends to 16 per cent. possibly be in order before that time, how esting question that is agitating many healthy minds. Would any possible re-calcitrant witness, after carrying their cases through all the courts, finally be pardoned by the President?

JUMPED TO HER DEATH.

A Girl's Fatal Attempt to Escape From a Convent.

Indianapolis, Ind., May 9.-Nellie Moor lies dead in the convent of the Sisters of the Good Shepherd, the result of an attempt to escape by springing from a second floor window. A number of the girt conspired for a general break. Neille to lead the way, but she suffered such in juries to her spine that the others were deterred from following her. The girl was twentytwo years old and her relatives are thought to live at Jeffersonville

The mother superior is reticent, giving no information concerning the death to characterize it as a "willful accident."

"I'll get even with you!" exclaimed the caraged statesman, to the large, redheaded man, who had stepped on his oms in a crowded street car. And the next day he introduced a bill punishable by a fine of \$250 and imprison ment in the county jail thirty days to step on the corns of any members of the legis

Two Hundred Battles Is Infirm With Age and Wears Blue Goggles Valorous Fighter Both of Whites

Chief Red Cloud, American Horse, Clarence Three Stars, and High Star, the delegation of Ogalafla Sioux, late Saturday evening, arrived in Washington from New York, where they had been several days as the guest of Buffalo Bill.

They have been in Washington several weeks negotiating with the Government in regard to treaties, and will remain here two weeks longer. About fifty of Red Cloud's people are with Buffalo Bill. and by these he was given a most condial when he appeared in Madison Square Garden last Friday. He was accompanied by his fellow-chieftains and his interpreters, and was met by Major and escorted to the Garden, where they arrived just before the conclusion of the

Thousands of persons were assembled eager to see the great warrior, and when be arrived he was greeted with a storm

Red Cloud is recognized as the greatest of all Indian warriors in the defense of his lands, and since the death of Sitting Bull is the oldest Sioux chief living. He in more than 200 battles, and was the chief who captured Fort Phil Kearney in 1865 and killed every man at his post. The iast Indian war on his territory, with the Sloux at Pine Ridge agency in South Dakota, and ended with the bloody battle at Wounded Knee, in which Sitting Pull met his death. Since this war the Sioux tribes have been very quiet, and it seems now that peacels permanently settled upon

Red Cloud is now seventy-six years old and is particularly blind, and for this reason he wears a pair of blue goggles. His lite in the central plains covers the cureers of the most noted generals—lloward, Shernan, Sheridan, Crook, McKenzie, Custer, Miles, Merritt, Dodge, Carr, Emery, Hatch, and Gibbons

s branch of the Platte River, only lifteen the Resebud Indians, and though he has often gone great distances, he has I ved mostly around the Black Hills. He was in Washington on his first treaty mis during the last term of Grant. S that time he has been here about a clozen times, and has met all the Presidents since Grant, considering them his friends, and professing sincere friendship for them. He has fived at the Pine Ridge agency for twenty-eight years. The arst great chief of the Sloux tribe was Young-Man-Afraidof-His-Horse, who ruled a half a century

opon his death, Red Cloud was made hief of the Sioux, in South Dakota, and since that time had had a wonderful in-fluence over his people, who still look up to him as the greatest chieftain of the

The Chevennes and Arapahoes have always been friendly to him, but agains all the other Indian tribes he has at all mes fought with great valor.

He has come to Washington as the rep esentarive of the Sioux nation, and, allotting of land to his people. "His people do not want it," he says, because they have inspected every inch of the land, and claim that it is not adapted to agricultural use. Nothing can be raised on it, although they have tried to plant and, in fact, they do plant every spring but with little success. The crops far

well until July, when the sun burns then The Sioux think that the land is de cidedly adapted for grazing purposes Cattle and horses can now be raised, but if the land would be alloted to the people in portions the cattle could not be kepwithin the land limited by law, and Re-Clods claims that this would cause great trouble among the Sioux people cattle would always be going on for bidden ground, or into the white people's

land, causing endless trouble. Red Cloud, on account of his age and firmities, had great difficulty in coming East this time. But he was urgently ap pealed to by his people, so came to Washington to grasp his friends and the great father's hands, and to make a last appeal to them in behalf of his people, hoping that what he asked might be granted. Red Cloud is accompanied by American Horse, another noted chief, and famous warrior. He is fifty-five years old and

books an ideal Sioux warrior in his prime. He was born at the foot of the Black Hills, and since then has lived about the Black Hills and the Platte River, Tongue River and famous Little Big Hora, at the foot of the Rockies. He is leader of the ogalalla Sioux at Pine Ridge Agency. It is interesting to note how he became chief. Since he was eighteen years old he

has been prominent in warfare. When he was twenty-four years old he says he "became a man by marrying a woman, 'and lived near the Black Hills at Bear Lodge. His people came together in great numabout ten tents. It was a gathering of Sioux. The officers of the day went to him and led him to the place of honor. He then brought Young-Man-Afraid-of-Horse, and Sword, a brother of Capt. Sword, and lastly Crazy Horse. Young-Man-Afraid-of His-Horse withdrew from the chieftainship and American Horse was elected chief, no

chief. His father refused to be appointed when he would have been made chief by Religiously he believes that there is God, a supreme God, and while be is not religious officially, he is in sympathy with all church and religious work. He also has the ancient Dakota convictions, which is that God may be approached in the sun dance. He says that they worship the religion more than the white people do.

descent, although his grandfather was a

for they practice what they preac American Horse has come East with Red Cloud to get the public men to carefully consider the question of their interests For a number of years the Sloux have been holding councils about matters entered into between themselves and the Government. and yet there is much misunderstanding about them. The Sioux from these councils have selected twelve particular subjects, which they have authorized Red Cloud and American Horse to bring before the Senate Indian Relations Committee

Clarence Three Stars, who has com East as an interpreter, is a graduate of the Carlisle Indian School, which he entered in 1879. He is a full-blood Sioux being the son of Yellow Knife. He is now thirty-three years of age. After he left Carlisle he went to Philadelphia, and worked in Wanamaker's store for two years. He is now keeping store at Corn Creek, in the Pine Ridge agency.
